

ULTRA 1270 REMOTE STARTER

The 1270 offers everything you could possibly want in a remote starter, including a cold weather timer that can start your vehicle automatically when it needs it most over those cold winter nights. The 1270 Remote Starter will work on virtually every type of vehicle, including diesel engines! If your vehicle has a manual transmission you can order the "M" Series for safe Manual Transmission Operation.

HIGHEST QUALITY: As with all Ultra Start products, we have made no compromise when it comes to quality. The 1270 Series offers industrial rated components and has been engineered to with stand the most extreme conditions our climate can present. All Ultra Start products are guaranteed as long as you own your vehicle.* (Ask your dealer for details.)

LONGER RANGE: The Ultra Start 1270 uses the Ultra High Frequency Technology. This advanced RF technology allows you start your vehicle at amazing distances of up to 1200ft.**

USER-FRIENDLY: Unlike many remote starters and alarms on the market, Ultra Start makes this advanced technology easy to operate, from the user friendly icons on the remote to the self diagnostics, the 1270 makes using your remote starter, keyless entry, trunk release and all of the other features simple.

EXCELLENT VALUE: The Ultra Start 1270 offers the best value in the industry when it comes to a remote starter or remote starter with alarm. This mode offers all of the features, reliability, quality and range of some of the most expensive products on the market, but at a fraction of the price, which results in the best value for you without any compromise in quality or warranty.

SPECIFICATIONS
